#### 4. Please check appropriate boxes: *(Neighborhood, Home, & Community Facility Sponsors only)*

We are able to provide the following team leadership positions for our project:

- A qualified skilled House Captain – your house captain must be from the construction industry, if not, RTSD will attempt to assign someone to your project site. A representative from your organization will then be able to serve as co-captain. (This is a requirement)
- A Volunteer Coordinator - to coordinate non-skilled labor team (proof of recent CPR & First-Aid training is required) – The American Red Cross provides regularly scheduled classes at minimal cost).
- We will provide a volunteer team of 20-30 people. *(If your Organization/Company is unable to fill any of these key House Team Positions then Rebuilding Together San Diego will **attempt** to provide qualified volunteers.)*
- We would be interested in co-sponsoring a house and/or community project for a home and/or community center that requires considerable repairs.
- Our company/organization is offering our skilled labor and our services as an in-kind donor.

#### 5. Please describe the type of repairs that are best suited for your organization.

*(Neighborhood, Home, & Community Facility Sponsors only)*

Every effort will be made to meet your site preference. Our primary concern is matching the available skills to the work that is needed.

<input type="checkbox"/> <b>Light</b>	A <b>LIGHT</b> house may need scraping, painting and/or cleaning. It may need some weather-stripping or light repair work. It can be staffed with unskilled volunteers and a handyman. This type of site may require one weekend of prep work culminating in the completion of the repairs on our Annual Event Day or during our year round program.
<input type="checkbox"/> <b>Medium</b>	A <b>MEDIUM</b> house requires a knowledgeable House Captain. It may need painting as well as carpentry, the installation of a wheelchair ramp, electrical and plumbing work. It may require one or several skilled people. This type of home may require two weekends of prep work culminating in the completion of the repairs on our Annual Event Day or during our year round program.
<input type="checkbox"/> <b>Heavy</b>	A <b>HEAVY</b> house needs a substantial amount of work requiring several skilled people. The House Captain should be prepared for a major work-load. It will usually require an advanced crew of skilled volunteers for two to three weekends of prep work culminating in the completion of the repairs on our Annual Event Day or during our year round program.

#### 6. Please list the number of skilled and professional volunteers in your group.

Please check skills your team possess and indicate either: (s) for skilled or (p) for professional	<b>Skilled:</b> A volunteer with sufficient technical skills and resources to know what can/can't be done. These volunteers are typically Crew Leaders who will supervise a small number of volunteers to perform a specific task through completion.	<b>Professional:</b> A volunteer who is an expert in a given trade. These volunteers are a valuable resource and may be needed on multiple sites.
